May 2024

April was an action packed month in school. Sporting PB provided a successful holiday club and continue to support in school in our PE lessons and afterschool club. Y1 visited Wolsley Wildlife center, and despite the rain, had a great experience and Y2 made puppets with Lizzie from the Staffordshire History Centre. We also interviewed for a new teacher to cover Miss Wain's maternity leave and have successfully appointed Mrs Draycott and we look forward to welcoming her into the team.

Undoubtedly, science week was the highlight, where children carried out lots of awesome experiments including zip lines and viscosity tests!

Mrs Hanson
